Engineering and

boilerhouse review

INDEX TO VOLUME 81

JANUARY-DECEMBER 1966

Published by
ENGINEERING REVIEW PUBLISHING CO LTD
Braywick House, Maidenhead, Berkshire

Page

A

Automatic control systems - Automatic run-up in power stations, Unattended shell boilers - how far can we go? 136
Avoid corrosion in cupro-nickel feed heater tubes .. 38

B

Balance between space heating and fuel economy .. 45
Boiler cleaning - survey of off-load methods 286
Brush factory raises steam from wood waste 105

C

Care of motor control gear 269
Chemical clean removes 500 lb of rust from boiler 108
Chemical inhibitors guard power plant 107
Combustion engineers discuss total energy 351
Computer analysis aids incinerator design 356
Costanera - Argentina's £35 m. station opened . .. 152

D

Danish boilers heat Leicester development 349
Deciding the insured value of plant 180
Developments in coal research 187
Draught regulation gives chimney protection 110
Dungeness 'A' opened 181
Dunlop cut costs by generating their own steam . .. 178

E

EDITORIAL COMMENT

Do combined gas/steam cycles pay? 37
Don't squeeze power to hard.. 233
Forward thinking for new towns 343
Gas may help close the trade gap 257
Natural gas - a world perspective 169
New boilers - new water treatment 315
One way to beat the payroll tax 135
Teach the young to work safely 285
Technical lag or economic wisdom 201
A Two-way communication 1
What price cheaper fuel? 69
You'll have to think in N/sq m 101

Economics of industrial power 15
Effect of ash on boiler efficiency. 87
Effect of moisture and ash on boiler efficiency 111
Electricity Council want share of gas 328
Engineer-surveyor protects plant safety. 294

F

Fast feeder control limits maximum demand 150
Feed pump selection.. 202
Feedwater control valve reduces pressure fluctuations 76
Feedwater treatment at CEGB's Drakelow C 344
Filter plant treats difficult Rhone water 216
Finding and preventing open circuits in three-phase motor systems.. 80

G

Glandless pumps save maintenance, cut outage time 78

H

Hattersley make 'Dynamic Disk' valve 49
Highlights and review of HEVAC 114
Highlights of the IEA Exhibition 155
Hohe Wand - Austria's new three-fuel power station 47
How core balance relay systems prevent electric shock 21
How the insurance broker can help 350
How to control the cost of steam 51
Hungary commissions first home-built 100 MW unit 299

PLANT AND EQUIPMENT

AC solenoid valves.. 227
Addition to Riley burner range 164
Aerosol cleaner 61
Air control valve in aluminium 226
Air current detector indicates pipe leaks 164
Alarm system based on standard circuits.. .. 128
Allied Ironfounders increase their range to 20,000 lb/hr 62
Allied use Grundfoss 310
Aluminium mill uses Osram-GEC lighting .. 95
An addition to Ideal-Standard's range of boilers 30
Anti-seize compound 31
Autoclave lined with high silicon iron 333
Automatic gas burners added to Nu-Way range 195
Automatic water softening with 2000 gal/hr capacity 196
Batteries charged in 11 hours 227
Belt fastening made easy 252
Boiler fabrication time cut by Tru-Wel 249
Boiler flame controlled by transistors 277
Boiling water resistance 361
Booster bender controls thinning when bending tubes 194
Booster pumps speed oil ships' turn-round .. 128
Bulk supply for propane 333
Burglar alarm operates over 1,000 ft.. 227
Burner control boxes interchangeable.. 334
Butterfly valve control methane. 194
BVC launch new cleaner 252
Cheaper low level air supplies for factories .. 228
Checking the water treatment 96
Check your refrigeration systems.. 338
Cleaner delivers quality-controlled steam . .. 28
Cleaning electrical parts 310
Close coupled pump for fuel oil transfer 228
Closed circuit TV aids welding 306
Cochran's chimney solves smuts problem .. 64

	Page
Combined pressure and draught recorder	62
Compensating expansion	165
Concrete cleaned in two minutes	165
Condensate recovery units now packaged	126
Constellation ventilation	226
Continuous service with propane pilot ignition	338
Controlling the level in boreholes	310
Corrosion proof valves in PVC	334
Couplings give warning of pressure tight joint	333
Cut calorifier space by 90 per cent	332
Cut grinding costs by 80 per cent	196
Compound leverage wrench gives increased torque	251
Deionising for laboratories	310
Diesel engined blower units for Malaya	225
Disposing of dangerous gases	60
Easy access to pf mills	362
Electronic thermometers	128
Eliminate draught problems	195
Fine gauge solder	28
Flamemaster gives two stage combustion	97
Flame tubes needn't cool before cleaning	163
Flexible hose now CEGB approved for oil firing equipment	249
Flow warning for cooling	334
Fluid controls for pipeline engines	227
Free flowing welding rod	28
Frequency alarm for computers	65
Freezing small bore pipes	364
Friction clutch for shaft drives	278
Fulton boilers - new range available	250
Gamma gauge controls for paper mills	61
Gas fired air heaters	252
Gasifiers used on retort process	65
Hamworthy adapt heater for drying oven	96
Hear when your battery's flat	226
Heater in stainless steel	364
Heating 40 gal drums	250
Heavy duty sanders	63
Herbert Morris add 'Safeload' brake to WF hoist	124
Higher output claimed for metal spray gun	277
High lift safety valves	251
High pressure centrifugal fans	29
High-pressure fittings from USA available	334
Hiring cutting machines to small firms	64
Hole deburring in one quick pass	225
Hopper-filling with the Reach-Tippler	95
Hydraulic drilling sets	228
Hydraulic valves reduce costs	251
Improved jointing compound	252
Improved thickness gauges	94
Increased Univac rating	333
Industrial and domestic heat metering	166
Inhibitor saves £300 a year	278
In-service cleaner	251
Instant paint system for refinery	61
Insulating concretes now up to 1400C	164
JLC Unifeed and Twinfeed pumps now to metric standards	195
Kelvin's latest ultrasonic flaw detector	307
Kiln firing with Tecalemit's CUB - new compact range of burners	227
Lagging for steam lines	332
Larger Allplas ball	165
Level switches meet Continental and American standards	165
Lighting those awkward spots	124
Listen for pipe leaks at a range of 45 ft	193
Loud alarm for field telephone	65
Low cost stainless steel tubing	332
Lower maintenance and greater safety with swivel joints	163
Low pressure steam boiler from Allied Ironfounders	196
Magnetic unit removes scale in a month	63
Match the drying cycle to the moisture load	96
Measuring centre line averages of 0-300 microins	29
Membrane cylinder eliminates expansion tank and cuts costs	164
Meter records 10,000 hours of machine time	94
Miniature air powered scribing tool	279
Monitor for dust burden from pf boilers	31
Multi-range microthermometer	278
Need small supplies of soft water	29
New heat transfer medium	333
New polymeric Flocculant	126
New range of alarm bells	364
New range of low cost ball valves	30
New technique for pipe joints	338
Nitrogen pressurising HTHW systems	61
No gaskets needed with butterfly valve	166
Noise and vibration stopped by adhesive	29
No more pipe threading	251
Off the shelf pumps	228
Oil, gas, or solid fuel fired boilers	30
One-piece scaffolding passes through manholes	193
Oxygen concentration measured in seconds	97
Paxman use Marinite	61
Phenolic coating beats corrosion	60
Plastic components used in condenser cooling lines	193
Plastic pipe fittings	307
Pneumatic jack lifts 100 tons	306
Portable air compressor	65
Portable phase sequence indicator	97
Portable ultra-violet hand lamp	95
Portable welder for site-work	307
Positive blowers	310
Pottertons increase range	364
Prevention of corrosion in compressed air lines	95
Pumps for abrasives and corrosives	279
Range of flameproof motors covers 0-600 hp outputs	226
Removing millscale	64
Repair and preventive maintenance kit	30
Resisting corrosion	31
Re-usable patch for pipe leaks	30
Replacement packing for cooling towers	226
Safety control for burners	130
Scoopactor limits torque to belt conveyors when starting	166
Sealing cord withstands 500 lb/sq in	63
Silent space heating	278
Silicone release agents	364
Silicone rubber stops pump leakage	124
Silt removal from manholes	62
Simplfied test set for alkali cleaner	126
Sludge protection 279	
Spray angle maintained independent of pressure	361
Stainless steel check valves for high pressure applications	278
Stainless steel hose in $\frac{1}{4}$-24 in diameter	31
Steam cleaner gives 1000 lb output in two minutes	250
Stopping corrosion	63
Submersible pump is only $14\frac{1}{2}$ in high	63
Subminiature pressure transducers cover 0-150 lb/sq in	128
Swedish oil burners aim at British market	126
Swiss hose binding system now available to UK industry	307
TC fans save space and cost say Axia	364
Telstor level measurer now flame proof	96
Temperature indicators	278
Temperature regulation for nitrogen-cooled chambers	361
Thirty-year-old fans at Pinkston reconditioned	362
Three-position indicator	362
Thrust bearing - safe at high speeds and loads	306
Time switch for domestic units	310
Titanium heaters resist corrosion	362
Tower scaffolding system	338
Thermometers-electronic	128
Treatment for 3,500 sec black oil	61
Trianco introduce 0.25 m. Btu/hr gas fired boilers	194

Triton ceramic fibre 64
Tube brush for high temperature boiler cleans 361
Tube cuts auto-clave cost 364
Tubeless and coilless boilers to 1000 lb/hr .. 195
Tubes cut in restricted areas 250
Turbine flowmeter accurate to 0.1 per cent .. 130
Turbine saves 50 per cent space 225
Two way feed for pressure filters 333
Two way solenoid valve for burners 164
Ultrasonic cleaning of pH electrodes 64
Univac pump handles 1 in dia solids 165
Walkways have high strength/low weight 60
Water valve covers 32 F-190 F in 3 stages .. 226
Wax expansion gives 250 lb force through 1 in travel 252
Worm gear motors 334
Valve for pneumatic systems leak-tight at 200 lb/sq in. 163
Vanguard with underfeed stoking 95
Vibratory feeders with feed rates of up to 30 ton/hr 166
